

Group Life Insurance Report Given by SPAC

The Special Problems Advisory Committee recently obtained pertinent facts and figures in connection with the Group Life Insurance Plan. In discussing this material with the officers of the SPAC, it was brought out that this information could be referred to as an annual report. They suggested that if participants have any questions concerning the plan they should be addressed to SPAC members.

The summary of experience is as follows:

Reserve Fund

The contingency reserve fund at the end of February, 1958 was Fls. 88,347.71. With added interest and another year of favorable experience, this fund at the end of February, 1959 was Fls. 103,997.82.

A reserve fund of Fls. 100,000 had to be accumulated in the event of multiple large claims.

In the plan at the time were 3367 participants and, therefore, distribution of funds in excess of Fls. 100,000 would have been equal to slightly more than Fls. 1 for each participant. This was hardly enough to be worth while.

If the experience is as favorable for the balance of the present fiscal year as it was in the past years, there should be some free insurance after next February. It took three years to build up the fund to over Fls. 100,000, but that is now all to the credit of participants for purpose of determining future distribution of free insurance.

Insured Versus Uninsured Deaths

The ratio of insured versus uninsured deaths was almost exactly in proportion to participation.

During the fiscal year ending Feb-

ruary, 1957, there were four deaths of insured employees and six deaths of uninsured employees. There was forty-four per cent participation then. During the fiscal year ending February, 1958, there were five insured deaths and ten uninsured deaths. The participation was forty-six per cent.

During the fiscal year ending February, 1959, there were nine insured deaths and four uninsured deaths. The participation was sixty-eight per cent. This year so far the ratio is four to three in favor of insured employees.

Better Experience Proportionate

The second "drive" allowed uninsured employees to sign up without medical examination. The experience could have been much worse because of this fact, but fortunately it has not been to date.

The Plan is accomplishing what is intended; that the rates are as low as can be obtained; and it is hoped the experience will continue to be favorable so that participants will share in benefits to be derived from favorable experience.

Generally, detailed financial statements are not sent to all participants in a plan of this kind because of the added expense that would be charged against the plan.

Koor di Pascu Di 75 Voz Ta Duna Concierto

Lago Community Christmas Choir di 75 voz lo anuncia e alegria di dianan di fiesta cu cuatro presentacion di su concierto special di Pascu. Bao di e direccion competente di Doris Thompson, e koor lo aparece pa di promer vez den Centro Cultural nobo di Aruba y tambe duna su di tres concierto desde 1956 den Lago Sport Park. Ademas, e koor lo presenta dos concierto na Lago High School. Sra. Thompson a dirigi e concierto inicial na Sport Park na 1956. E organista pa e conciertonan lo ta Ruth Collins.

E koor, cu ta consisti di voces adulto di residentenan di Seroe Colorado, lo presenta na Centro Cultural Diarazon anochi, Dec. 16, cuminzando pa 8:15 p.m. E carchinan lo costa Fls. 2 y lo ta di venta na tur e librerianan di De Wit y na Centro Cultural. E concierto di Sport Park lo tuma lugar e siguiente anochi, Diahuebes, Dec. 17, cuminzando pa 8 p.m. Carchinan pa e concierto aki lo ta Fls. 0.50 pa hende grandi y pa mucha. E programa di e anja aki lo no worde transmiti pa radio. E conciertonan na Lago High School lo ta Dec. 13 y 14.

Ademas di dos number di Handel's "Messiah," canticanan tradicional di Pascu lo worde inclui den programa di musica special di e koor. Anja pasá, mas cu 2000 persona a reuni den Sport Park pa tende e programa inspirante.

Tur probecho di e concierto na Sport Park lo worde duná na un obra di caridad na Aruba cual lo worde selectá mas despues.

Twelve Men Seek Four LEC Posts in Elections To Be Held Dec. 9, 10

LEC constituents will go to the polls Wednesday, Dec. 9, and Thursday, Dec. 10, to select three national candidates for council membership and one non-national candidate to a council post. Of the twelve candidates vying for these positions, four are incumbent Lago Employee Council members, one is an LEC alternate and three are alternate district representatives.

The plant-wide elections will replace two nationals and two non-nationals whose terms expire. The change in ratio from six national council representatives and two non-nationals to a seven-one ratio is because of a change in the LEC membership ratio in favor of the national group. Those elected next week will serve two-year terms.

In order of their appearance on the ballot the candidates, their LEC records and company records are:

National Candidates

H. B. Hopmans, Mechanical-Paint yardman, alternate district representative, with eleven years, five months of Lago service;

B. Luydens, General Services-Commissaries check-out cashier, Lago Employee Council member, with twenty years, eight months of Lago service;

D. Flemming, Process-C&LE assistant operator, Lago Employee Council member, with sixteen years, seven months of Lago service;

T. Geerman, Mechanical-Paint yardman, alternate district representative, with four years, one month of Lago service;

C. R. Yeung, Mechanical-Yard

cleanoutman, district representative, with thirteen years, eight months of Lago service;

V. M. Cilie, General Services-Maintenance & Service driver I, alternate Lago Employee Council member, with eleven years, ten months of Lago service;

J. F. Krozendijk, carpenter B in Mechanical-Carpenter, district representative, with twelve years, three months of Lago service;

J. B. Tromp, Lago Police Department patrolman II, district representative, with fourteen years, eleven months of Lago service, and

T. A. Solognier, Medical Department janitor, with ten years, one month of Lago service.

Non-National Candidates

M. Lewis, Process-Receiving & Shipping assistant operator, Lago Employee Council member, with fifteen years and ten months of Lago service;

Retirements Set For Two Process, Mechanical Men

Two Lago employees with a total of fifty-six years' service between them will soon be official company annuitants. The long service men are Pedro Maduro, boilermaker helper A in Mechanical-Metal Trades, who has more than twenty-six years' service, and Jacobus Arends, houseman in Process-Cracking, who lacks just fourteen days of having thirty years' service.

Mr. Maduro left the company Nov. 23 for subsequent retirement and Mr. Arends will leave Dec. 12 for future retirement.

Mr. Maduro joined the company Aug. 29, 1930 as a helper first class in Mechanical-Metal Trades where he remained until October, 1935. He transferred to the pressure stills as a helper and then went to the dry dock. He became a dry dock helper B in July, 1944.

Mr. Maduro then transferred to metal trades as a boilermaker helper B in August, 1947. He was promoted to boilermaker helper A in March, 1950.

Mr. Arends came to Lago Nov. 28, 1929 as a laborer in Process-Cracking where he has remained throughout his twenty-nine years, eleven months and sixteen days of service. He became a still cleaner in June, 1932 and a chamberman in November, 1937. He was named a process helper C in May, 1942, and a fireman in October, 1942. Mr. Arends served as both a houseman and then levelman in 1943 but returned to his houseman duties April 1, 1958.

Both Mr. Maduro and Mr. Arends were born in Aruba and both plan to retire to their homes here.

O. Mingus Tells Rotary of Modernization

"Modernization and improvement is a way of life; without it, we are doomed to decay and ultimate failure," O. Mingus told the Aruba Rotary Club Monday night, Nov. 23, at a dinner meeting at the Esso Dining Hall. Present were 45 members of Rotary and Lago management. A special guest was Lt. Gov. F. J. C. Beaujon who actively participated in the meeting.

Before dinner the Rotarians had toured one of the company's revamped cracking units and had heard explanations of the modernized factors given by M. E. Fisk, Process superintendent, and G. L. MacNutt, Mechanical superintendent.

In his after-dinner talk President Mingus reviewed the early history of the units, beginning thirty years ago when they were the largest and most

advanced in design in the world. At that time the refinery throughput was 85,000 barrels a day. By the end of World War II it was nearly 300,000 barrels a day and for a number of years after the war it exceeded 400,000.

Mr. Mingus explored the question of why the company had now found it necessary to spend many millions of dollars on modernization with no increase in capacity and no different products. The answer, he said, was the need for processing the same amount of crude in fewer units, to have equipment that requires less maintenance, to have equipment that turns out products of higher value. Only this way, he said, could Lago continue to be competitive in the world market.

AN ACTIVE participant in the Rotary Club of Aruba's dinner meeting at the Esso Dining Hall was Lt. Gov. F. J. C. Beaujon, shown addressing the 45 Rotarians and members of management present at the Nov. 23 event. Lago was host to the service club.

UN PARTICIPANTE activo den e reunion cu comento di Rotary Club di Aruba na Esso Dining Hall tabata Gezaghebber F. J. C. Beaujon, kende aki ta dirigi palabra na e 45 Rotarianan y miembronan di directiva presente na e ocasion Nov. 23. Lago tabata huesped di e club aki.

Presidente A Conta Rotary Tocante Modernizacion

"Modernizacion y mehoracion ta un modo di bida; sin e, nos ta condena pa fracaso," O. Mingus a bisa Aruba Rotary Club Dialuna anochi, Nov. 23, durante un reunion cu comento na Esso Dining Hall. Presente tabata 45 miembro di Rotary y directiva di Lago. Uu invitado special tabata Gezaghebber F. J. C. Beaujon kende a participa activamente den e reunion.

Promer cu e comento e Rotarianan a bishita un di e plantanan di cracking modernizá y a tende splicacionnan di e factornan modernizá duná door di M. E. Fisk, process superintendent, y G. L. MacNutt, Mechanical superintendent.

Den su discurso despues di comida Presidente Mingus a repasa e promer historia di e plantanan, cumi-

zando trinta anja pasá tempo nan tabata di mas grandi y mas avanza na mundo. E tempo e capacidad di refinaria tabata 85,000 barril pa dia. Pa fin di Guerra Mundial II e tabata casi 300,000 barril pa dia y durante algun anja el a pasa 400,000.

Sr. Mingus a explora e pregunta pakico compania a haya necesario awor pa gasta millones di dollars ariba modernizacion sin aumento den capacidad y sin diferente producto. E contesta, el a bisa, tabata e necesidad pa refina e mes cantidad di crudo den menos planta, pa obtene plantanan cu ta requeri menos manutencion, pa obtene plantanan cu ta duna producto di valor mas halto. Solamente di e forma aki, el a bisa, Lago por sigui ser competitivo den mercado mundial.

Diez-Dos Candidato Pa Puesto Di LEC

Constituyentenan Lo Vota Dec. 9 y 10 pa Candidato

National Candidates

Constituyentenan di LEC lo vota Diarazon, Dec. 9, y Diahuebes, Dec. 10 pa selecta tres candidato nacional como miembro di council y un no-nacional. Di e diez-dos candidatonan cu ta competi pa e puesto-nan, cuatro ta actualmente miembro di Lago Employee Council, uno ta un miembro substituto y tres ta representante di distrito. Tur a worde nombrá pa peticion loke a requeri setenta y cinco firma pa candidato-nan nacional y binti-cinco pa no-nacional.

E eleccion general ta pa reemplaza dos nacional y dos no-nacional kende nan periodo a expira. E cambio den ratio for di seis representante nacional y dos no-nacional pa un ratio di siete pa uno ta pasobra a bini un cambio den e proporcion entre constituyentenan nacional y no-nacional. Etnan cu worde eligi otro siman lo sinta pa dos anja.

Segun secuencia cu nan ta aparece ariba e carchi di vota, e candidatonan ta:

Candidatonan Nacional

H. B. Hopmans, Mechanical-Paint yardman, representante di distrito substituto, tin diez-un anja, cinco luna di servicio cu Lago;

B. Luydens, General Services-Commissaries check-out cashier, miembro di Lago Employee Council, cu binti anja, ocho luna di servicio na Lago;

D. Flemming, Process-C&LE assistant operator, miembro di Lago Employee Council, tin diez-seis anja, siete luna di servicio na Lago;

T. Geerman, Mechanical-Paint yardman, representante di distrito substituto, cu cuatro anja, un luna di servicio na Lago;

C. R. Yeung, Mechanical-Yard cleanoutman, representante di distrito, cu diez-tres anja, ocho luna di servicio na Lago;

V. M. Cilie, General Services-miembro substituto di Lago Employee Council, cu diez-un anja, diez luna di servicio na Lago;

J. F. Krozendijk, carpenter B den Mechanical-Carpenter, representante di distrito, cu diez-dos anja, tres luna di servicio cu Lago;

J. B. Tromp, Lago Police Department patrolman II, representante di distrito, cu diez-cuatro anja, diez-un luna di servicio na Lago, y

T. A. Solognier, Medical Department janitor, cu diez anja, un luna di servicio na Lago.

Candidatonan No-Nacional

M. Lewis, Process-Receiving & Shipping assistant operator, miembro di Lago Employee Council, cu diez-cinco anja y diez luna di servicio cu Lago;

Diez Empleado di Largo Servicio a Recibi Oloshinan

E diez empleadonan di Lago cu recientemente a completa binti-cinco anja di servicio lo ta mas cu satisfecho pa sacrifica e parti di dia. Esaki ta duna nan e oportunidad pa muntra e bunita oloshinan di oro cu nan a recibi durante ceremonianan special Dec. 2 na Reception Center.

E oloshinan a worde presentá door di Superintendent General F. W. Switzer kende a felicita e empleadonan cu a cumpli binti-cinco anja di servicio pa nan acomplimento.

E dieznan ta C. Koolman, carpenter; V. C. Canword, electrical; J. H. Flanegin, pipe; V. A. Croes, pipe, y A. Boekhoudt, boiler, tur di Mechanical Department; E. D. Martijn, TSD-Engineering; J. F. Bryson, commissary, y L. J. Mathilda, crafts, tur dos di General Services Department; J. E. V. Fortin, Process-C&LE, y C. B. Evertsz, Marine-Floating Equipment Division.

R. Khan, process division clerk den TSD-Process, cu diez-ochu anja, un luna di servicio cu Lago, y

B. K. Chand, Mechanical-Storehouse assistant group head di surplus control, miembro di Lago Employee Council, cu binti-dos anja, ocho luna di servicio cu Lago.

Hunto cu e eleccion di LEC lo tin un eleccion interino pa eligi e representante di distrito pa machinist craft. E dos candidatonan ta R. Lo-A-Njoe y W. Arindell.

Carchinan di vota ta worde mandá pa tur departamento Dialuna, Dec. 7. Constituyentenan nacional y no-nacional lo haya carchi di diferente color. Supervisornan lo cumenza reparti e carchinan aki pa 12:01 a.m. Dec. 9 e promer dia di votamento. Oranan di vota ariba tur dos dia lo ta for di 6:30 a.m. te 5:30 p.m. Constituyentenan nacional ta vota pa solamente tres candidato y constituyentenan no-nacional ta vota pa solamente un candidato.

Resultado di e eleccion general lo worde comunicá den forma di anuncio na e varios portanan di refinaria Diabierna, Dec. 11, pa 4 p.m.

Diez-dos sitio di vota a worde escogi. Nan ta hospital lunch room No. 1, General Services Training Building, IR Training Building (pa zuid di Garage), tent na Porta No. 8 (Lago Heights Hill), lunch shelter na Zone No. 2, Safety Field Center, bus shelter na Porta No. 2, tent na Porta No. 9, lunch shelter dilanti Carpenter Shop, lunch shelter na Zone No. 1 bieuw, concrete block shed, y na Porta No. 3.

LEC Election

(Continued from page 1)

R. Khan, process division clerk in TSD-Process, with eighteen years, one month of Lago service, and

B. K. Chand, Mechanical-Storehouse assistant group head of surplus control, Lago Employee Council member, with twenty-two years, eight months of Lago service.

Voting cards will be sent to all departments Monday, Dec. 7. Different colored cards will be supplied national and non-national constituents. Supervisors will commence handing out these cards at 12:01 a.m. Dec. 9, the first day of voting. Voting hours both days will be from 6:30 a.m. until 5:30 p.m. National constituents will vote for only three national candidates and non-national constituents will vote for only one candidate.

Results of the plant-wide LEC election are scheduled to be distributed at the various refinery gates Friday, Dec. 11, at 4 p.m.

Concurrently with the LEC election there will be a by-election to elect the district representative for the machinist craft. The two candidates are R. Lo-A-Njoe and W. Arindell.

Twelve voting sites have been selected. They are the hospital lunch room No. 1, General Services Training Building, IR Training Building (south of Garage), tent at Gate No. 8 (Lago Heights Hill), Zone No. 2 lunch shelter, Safety Field Center, bus shelter at Gate No. 2, tent at Gate No. 9, lunch shelter opposite the Carpenter Shop, old Zone No. 1 lunch shelter, concrete block shed and the Gate No. 3 waiting room.

H. B. Hopmans

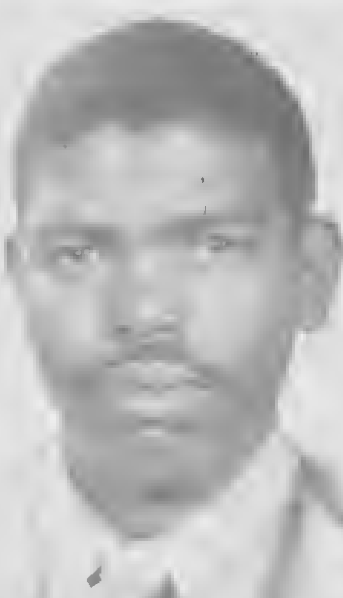

B. Luydens

D. Flemming

T. Geerman

C. R. Yeung

V. M. Cilie

J. F. Krozendijk

J. B. Tromp

T. A. Solognier

Non-National Candidates

Mechanical Department Riggers Say:

What Comes Down Can Go Up

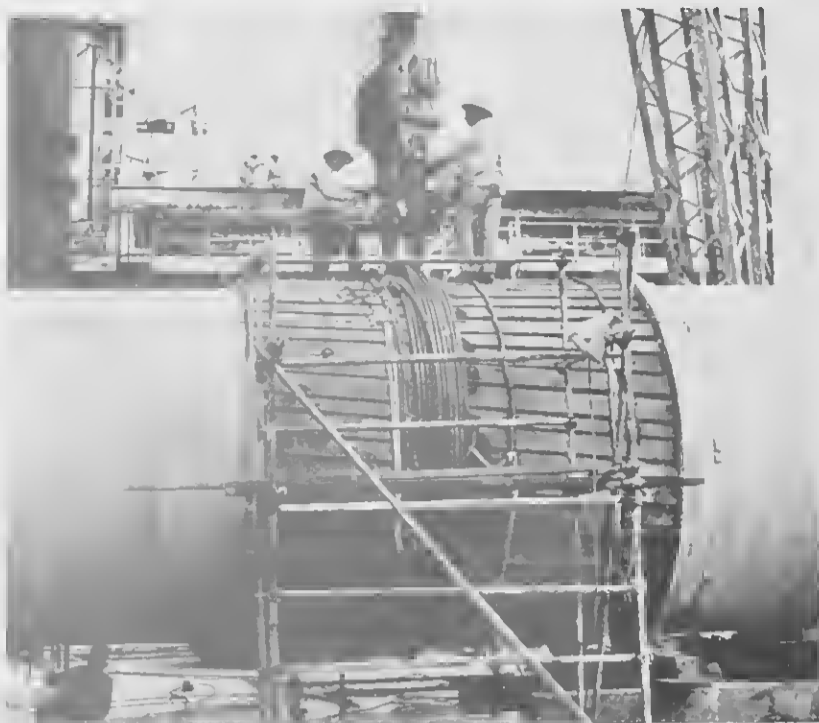

Riggers Re-Erect Visbreaker Stack

According to Newtonian doctrines, what goes up must come down. But according to the riggers, what comes down may go up which is often much easier than working with gravity. This is especially true when erecting such goliaths as a 100-ton stack. Men in Mechanical-Yard, and specifically the riggers, recently put up the same stack they took down in October. Rigger Foreman L. F. Moritz will tell you that easing the 180-foot giant onto its base and anchor bolts is a lot less tricky than dismantling the same load.

"When you're taking down a stack and make your first move, you get the whole load at once. If something's wrong it's too late to do anything and the stack could snap the cable and crash to the ground," Mr. Moritz said. He went on to say that when erecting the same load with the same equipment, the riggers know almost at once if the rig can safely handle the load.

The operation of erecting the revamped No. 11 Gas Oil stack at its new home at No. 9 Visbreaker went without incident. The guyed derrick's

(Continued on page 8)

RIGGERS HOOK into the steel-cable lashing wrapped around oak lagging. Five "live" and five "dead" 1½" lines make up the lashing. "Spiders" are constructed in the stack to prevent crushing at this point. RIGGERS TA pasa e cable di staal lora rond di un sostén di rohle. Cinco "live" y cinco "dead" cable di 1½" ta forma e lashing. "Spiders" ta worde construi den e schoorsteen pa preveni machicamento.

Riggers A Hizá Mes Schoorsteen

Segun doctrina di Newton, loke bai ariba mester bini abao. Pero segun riggers, loke bini abao mester por bai ariba atrobe, loke hopi vez ta mas facil cu traha eu gravedad. Esaki ta specialmente berdad ora di erigi gigantenan manera schoorsteen di 100 ton. Hombenan den Mechanical-Yard, y especificamente riggers, recientemente a hiza e mes schoorsteen eu nan a baha na October. Rigger Foreman L. F. Moritz por conta bu cu pa pone e gigante di 180 pia ariba su base y bolts di hanera ta un poco mas delicado ainda cu pa bahe'le abao.

"Ora bo ta baha un schoorsteen y bo haci e promer hizada, bo ta haya henter e peso di biaha. Si algo bai malo ta laat pa haci algo y e schoorsteen por rementa e cable y laga bini abao," Sr. Moritz a bisa. El a sigui bisa cu ora di hiza e mes carga cu e mes aparato, e riggers sabi casi mes ora si e rig no por traha seguramente cu e carga.

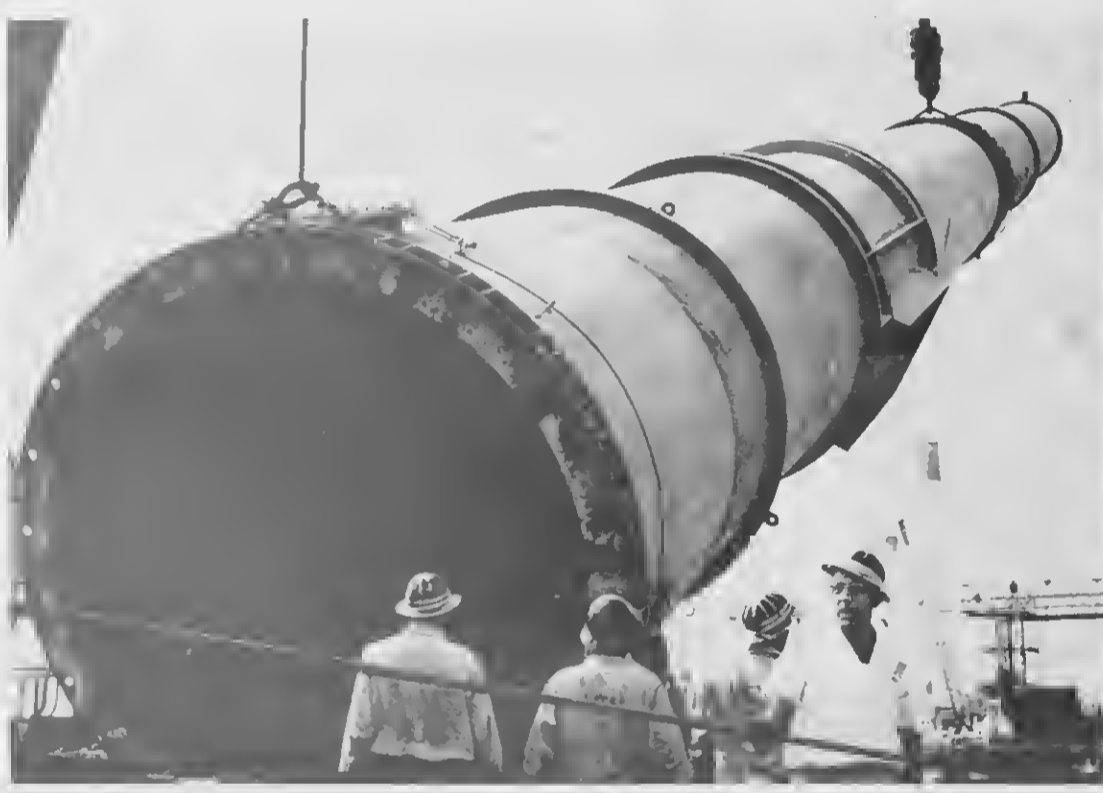

E operacion di erigi e schoorsteen drechá di No. 11 Gas Oil na su sitio nobo na No. 9 Visbreaker a bai sin ningun incidente. E boom di e der-

(Continúa na pagina 8)

THE BLOCK, clearly showing the thirteen strands of the load line, is ready to raise the 100-ton load. It dwarfs the riggers handling the cable.

E BLOCK, claramente munstrando e diez-tres strands di e linja di carga, ta ela pa lamta e peso di 100 ton. Cerca dje e riggers ta keda chikito.

AS RIGGER Foreman L. F. Moritz, foreground, calls out orders, the guyed derrick pulls the 180-foot stack off the ground. The cable around the base keeps the thirteen-cable block, and load, directly under the derrick's boom.

SEGUN FOREMAN di Rigger L. F. Moritz, adilanti, ta duna orden e derrick ta lamta e schoorsteen di 180 ton for di terra. E cable rond di e base ta tene e block di diez-tres cable, y carga, directamente bao di boom di e derrick.

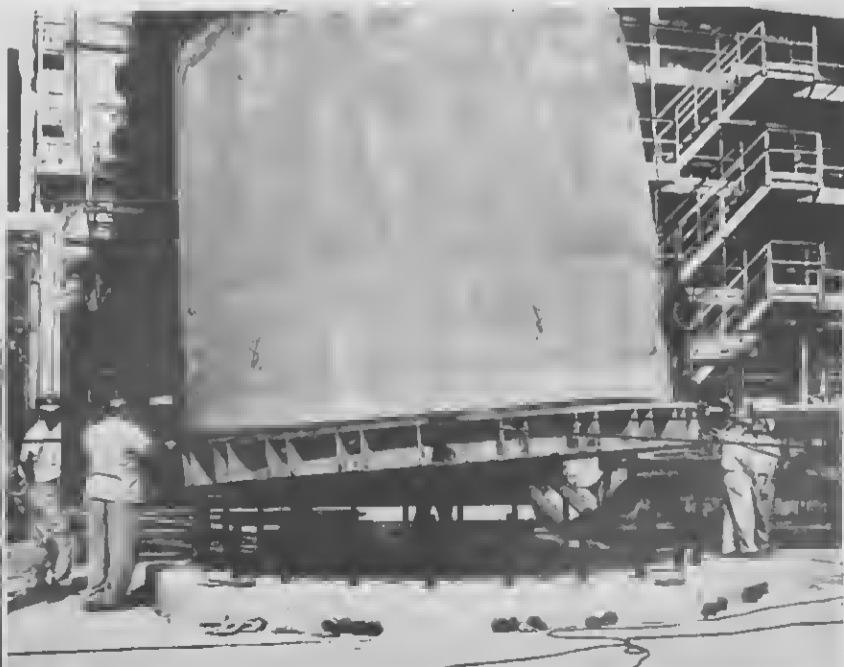

THE GIANT stack is finally secured in position. E SCHOORSTEEN gigantesco por ultimo ta worde poni firmemente na su lugar.

EVERYONE LENDS a hand to straighten out cable on the hoist's bottom drum. At this stage one part could roll over and cut the cable, which has all the load. TUR TA duna un man pa drecha un cable ariba e drum mas abao di e grua. Na e punto aki, un parti por lora over y corta e cable cu ta wanta tur e peso.

MANNING THE guyed derrick's hoist is W. Wernet, operator from Mechanical-Garage (Transportation). The steam powered hoist has three drums. OPERANDO E hoist di e derrick ta W. Wernet, operador di Mechanical-Garage (Transportation). E hoist cu ta move cu stiem tin dres drum.

THE STACK is eased onto the 2½" anchor bolts buried in a concrete base. Four cables attached to the stack's base enable the riggers to maneuver the stack into position for the drop. E SCHOORSTEEN ta worde pasá over di e bolts di anker di 2½" den un base di concreto. Cuatro cable mará na base di e schoorsteen ta en-capacita e riggers pa pone e schoorsteen na posicion.

Aruba, Curacao Score In Fishing Tournament

Big International Spearfishing, Trolling Contest Ends Nov. 15

There may be bigger fish in the ocean than have ever been caught but it's not because spearfishermen and trollers in the recent international fishing contests at Aruba didn't try. In fact, they tried and succeeded in spearing and landing some fair sized denizens of the deep Caribbean. Seen at the official weighing station were a fierce looking seventeen pound barracuda and a streamlined forty-seven pound marlin plus several hundred other finny species of all shapes and sizes.

What brought the undersea warriors and anglers from such far off spots as the United States, Cuba, Panama, Trinidad and St. Martin was the second International Spearfishing and Trolling Tournament which was held Nov. 13 and 14 in the Caribbean waters surrounding Aruba. Neighboring islands and countries also had official entrants and in addition to Aruba included Venezuela, Colombia, Curacao and Bonaire. The spearfishing contests had the most varied entrants with trolling limited to entrants from Aruba, Curacao and Panama.

Top team in the mask and flipper set was the official Aruba entrant. Captained by Rosendo Colina, Mechanical-Machinist, the three-man team punctured 130.5 kilos (287.1 pounds) of fish during the two-day underwater hunt. His partners were Nemencio Solognier and Pedro Bislick, TSD-Engineering employee.

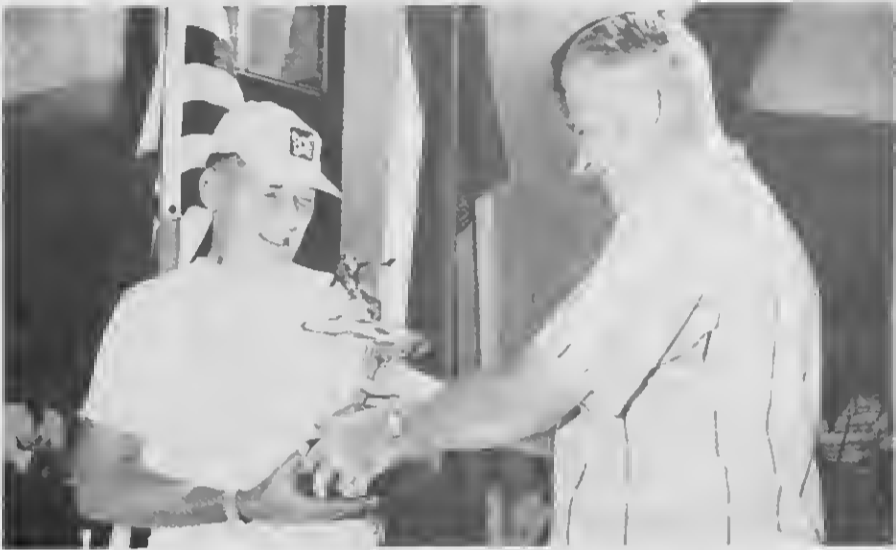

Meanwhile, back in the boats, trollers enticed everything from barracuda to yellow tail with fancy feathered lures or "live" bait. The Lady Bay from Curacao with P. Gorsira as skipper had the best run of luck. Its fishermen boated a total of 130 pounds of fish with all but ten pounds caught the second and last day of the contest.

The rules were rather simple for the trollers but were slightly complicated for the spearfishermen. Trolling teams got one point for each fish delivered to the official weighing scales at contest headquarters — the new Aruba Caribbean Hotel. Bonus points (twenty) went to the boat bringing in the largest fish each day and the boat having the largest catch each day. The same bonus points went to the teams which caught the largest fish during the entire tour-

Aruba, Curacao Ta Gana Torneo di Piscamento

Concurso Grandi di Spearfishing Y Trolling A Termina Nov. 15

Den lamar por tin piscá mas grandi di lo cual a yega di worde treci na terra, pero seguramente esey no ta pasobra e tiradornan y trollers den e reciente concurso internacional na Aruba no a purba. En efecto, nan a purba y nan a logra tira y barca algun piscá di tamanjo regular for di den Caribe. Na e stacion oficial di piscamento tabatin un barracuda formidable diez-siete liber y un balahoe streamlined di cuarenta y siete liber plus varios cientos otro clase di tur forma y tamanjo.

Loke a trece e concursantenan hunto for di lugarnan lejano manera Estados Unidos, Cuba, Panama, Trinidad y St. Martin tabata di segunda torneo internacional di spearfishing y trolling cual a worde teni Nov. 13 y 14 den awanan di Caribe rond di Aruba. E isla y paisnan cercano tambe a manda participantenan oficial ademas di Aruba, por ehemplo Venezuela, Colombia, Curaçao, y Bonaire. E concurso di tiramento di piscá tabatin e participantenan mas variá cu trolling limitá na participantenan di Aruba, Curaçao y Panama.

E equipo cu a sali campeon den tiramento di piscá ta e equipo oficial di Aruba. Cu Rosendo Colina, Mechanical-Machinist como captain, e equipo di tres homber a tira 130.5 kilo (287.1 liber) di piscá durante dos dia bao awa. Su companjeronan tabata Nemencio Solognier y Pedro Bislick, empleado di TSD-Engineering.

Mientras tanto, den e botonan, trollers tabata coi tur cos for di barracuda pa yellow tail cu nan diferente sorto di aas. Lady Bay for di Curaçao cu P. Gorsira como capitan tabatin e mehor suerte y su piscadornan a trece aden un total di 130 liber di piscá y cu tur excepto e diez liber cogi e segunda y ultimo dia di e concurso.

E reglanan tabata basta simple pa e trollers pero un poco complicá pa e tiradornan. Equiponan di trolling lo haya un punto pa cada piscá entregá na e lugar oficial di pisa na cuartel general di e concurso — Aruba Caribbean Hotel nobo. Puntonan adicional (binti) lo worde duná na e boto cu trece e piscá di mas grandi tur dia y e boto cu coi mas hopi piscá cada dia. Tambe un mes cantidad di punto pa e equipo cu trece e piscá mas grandi durante henter e concurso y

DISCUSSING THE merits of the revised CYI plan are S. Moniz, assistant operator, and J. A. Rodrigues, assistant shift foreman, right, both of Process-Cracking.

DISCUTIENDO MERITONAN di e plan revisá di CYI ta S. Moniz, assistant operator, y J. A. Rodrigues, assistant shift foreman, banda drechi, tur dos di Process-Cracking.

CYI Booklet Explains Revised Plan

Colorful Booklets Distributed Plant-Wide to All Employees

On Nov. 12, the colorful and attractive booklet describing Lago's revised Coin Your Ideas plan was distributed throughout the refinery. Most employees received their booklets, printed either in English or Papiamentu, from their immediate supervisors. And every single Lago employee, from the president on down, received one.

Printed in salmon and black on white, the pamphlet thoroughly explains the revisions recently made to Lago's Coin Your Ideas program by giving step-by-step instructions in submitting ideas. It further explains how each idea will be handled and judged under new CYI rules and regulations.

The booklet also outlines the history of CYI at Lago which goes back twenty-five years. It stresses the major changes in the plan that bring the suggester in direct contact with his immediate supervisor as a start for sending the idea through the line organization, increase the minimum award and base capital awards on a percentage of the total savings.

The revisions have been made to upgrade the quality of suggestions. This benefits everyone.

Tur Empleadonan den Planta A Recibi CYI Bukinan Nov. 12

Ariba Nov. 12 e coloroso y atractivo libreta describiendo e plan revisá di Coin Your Ideas a worde reparti den henter refinaria. Mayoria empleadonan a recibi nan bukinan, gedruk sea na Ingles of Papiamentu, for di nan supervisor inmediata. Y cada empleado, euminzando for di presidente, a recibi uno.

Gedruk den color salmon y preto eu blanco, e pamfleta ta splica detayadamente e revisionnan haci recientemente den Coin Your Ideas di Lago dunando informacion paso pa paso den presentamento di ideanan. E ta splica mas leuw con cada idea lo worde tratá y juzgá segun e reglanan nobo di CYI.

E libreta ta splica tambe e historia di CYI na Lago eu ta bai hack te binti anja pasá. E ta acentua e cambionan mas grandi den e plan eu ta trece e originador den contacto directo cu su supervisor inmediata na principio promer cu e idea worde mandá door di organizacion departamental, aumenta e premio minimo y basa premionan capital ariba un porcentaje di e spaarmento total, no sumanan fiho.

E revisionnan a worde incorpora pa mehora e calidad di ideanan.

STUDYING THE attractive and colorful booklet explaining the revised plan is C. Pellegrini, houseman in Process-Cracking.

STUDIANDO E atractivo y coloroso libreta eu ta splica e plan revisá ta C. Pellegrini, houseman den Process-Cracking.

THE BOOKLETS were distributed to all Lago employees Nov. 12. Mr. Rodrigues passes a copy to E. M. Roos, assistant operator in Process-Cracking.

E LIBRETANAN a worde reparti entre tur empleadonan di Lago Nov. 12. Sr. Rodrigues ta entrega un copia na E. M. Roos, assistant operator den Process-Cracking.

THE INFORMATIVE pamphlet holds the attention of F. Hock, left, levelman, and E. DeCuba, houseman, both of Process-Cracking. The booklets were printed in both English and Papiamentu.

E PAMFLETA informativo ta ocupa atencion di F. Hock, banda robey, levelman, y E. De Cuba, houseman, tur dos di Process-Cracking. E libretanan tabata gedruk na Ingles y Papiamentu.

Fishing Tournament

(Continued from page 4)

nament and the team having the largest catch over the same period.

But skindiving marksmen were required to know one species of fish from another if they wanted to concentrate on those giving maximum points. Rated low with the judges (but high in our book) was the "lowly" shark which was worth just ten points a pound. The harmless, but more maneuverable dolphin, was worth sixteen points a pound as was the Spanish mackerel, kingfish, and tarpon. On the other hand, (if you had one left after tackling this customer) was the barracuda which rated twelve points with the judges. Groupers were a dime a dozen at six points a pound and turtles had a field day chasing the divers as they were on the "don't shoot" list. Also protected, since they were worth no points at all, were the nurse sharks, supposedly harmless creatures.

There were eleven official spearfishing teams in the contest and four unofficial teams. Eighteen boats were entered in the trolling tournament. Entire cost of the big event was over Fls. 31,000 which was raised through donations by island industries such as Lago, which provided all boat fuel, a control boat for picket duty and compressed air for an official underwater photographer; plus the donation of championship medals, trophies and other momentos by local individuals and businesses. Much of the cost of the contest was in the form of a subsidy made by the island governments of Aruba, Curaçao and Bonaire. The Condado hotel chain offered official entrants reduced rates at the new Aruba Caribbean Hotel which was full from top to bottom during the festivities.

The biggest fish caught by either spearfishermen or trollers was boated by Albert J. van Montfrans, pharmacist at the Lago Hospital. The lucky angler was on board the Dixie with owner Ira Kirkman of the Technical Service Department at the wheel. On the end of his wire line was a strip of fish which was ultimately joined by a six-foot, forty-seven pound marlin. Biggest fish speared was brought in by the official Aruba spearfishing team. It was a thirty-three pound grouper. Mike Hagedoorn of an unofficial Aruba team pinned a seventeen and a half pound barracuda to the sandy bottom, the biggest 'euda caught, and the Panamanian team brought in a thirteen pound pompano, biggest in the "fish" category.

The Aruba Tourist Bureau staff, headed by Michael Kuiperi was the nucleus of a tournament committee which handled all arrangements for

e equipo cu eoi mas hopi piscá durante e mes periodo.

Pero e tiradornan mester conoce e piseñan for di otro si nan kier concentra ariba esnan cu ta duna punto maximo. Contá eu poco punto door di e jurado (pero halto den nos buki) tabata tiburon cu por a haya solamente diez punto pa liber. E dradu, cu no ta peligroso pero eu ta corre masha hopi, tabata vale diez-seis

the international event. Last year's contest was held in waters off Bonaire. Next year's tournament will be held at Curaçao.

All medals, trophies and special awards were presented at ceremonies held Sunday, Nov. 15, at the hotel. Gov. A. B. Speekenbrink made the presentations in behalf of the Netherlands Antilles government.

Standings and catches for the two categories are:

Spearfishing

Torneo di Piscamento

(Continued from page 5)

punto pa liber y tambe abricoor, konovis, y djoekvis. Na otro banda e barracuda tabata conta solamente diez-dos punto cerea e jurado. Djampauw tabata na seis punto pa liber y tortuga no por a worde tirá mes. Tambe protegá como nan no tabata conta pa ningun punto tocó tabata tiburon di santo, amigo di hende (segun nos ta kere).

Tabatin diez-un equipo oficial di tiramente di piscá y cuatro equipo inoficial. Diez-ochu boto a denta den e torneo di trolling. Costo total di e evento grandi tabata mas cu Fls. 31,000 cual a worde acumulá door di donacionnan door di industrianan ariba isla tal como Lago, eu a duna tur combustible pa boto, un boto di patrol y aire comprimi pa un fotografo oficial pa saca portret bao awa; plus e regalamento di medaljan di campeon, trofeo y otro reuerdonnan door di personanan individual y casnan comercial. Un gran

partí di costo di e concurso tabata den forma di un subsidio door di gobiernonan insular di Aruba, Curaçao y Bonaire. Compania di hotel Condado a ofrece prijsnan rebahá na participantenan na Aruba Caribbean Hotel nobo cual tabata yen for di ariba te abao durante e festividadnan.

E piscá mas grandi eogi door di tiradornan y trollers a worde treci aden door di Albert J. van Montfrans, boticario na Lago Hospital. Esaki tabata abordo di Dixie cu donjo Ira Kirkman di Technical Service Department na wiel. Na fin di su linja di piscá tabatin djies un piña piscá cual subsecuentemente a trece aden un balahoe di seis pia y 47 liber. E piscá di mas grandi eu a worde tirá a cai na man di e equipo oficial di Aruba. Tabata un djampauw di trenta y tres liber. Mike Hagedoorn di un equipo inoficial a tira un barracuda di diez-siete liber y mei, y e equipo di Panama a trece un cepero di diez-tres liber.

E personal di oficina di turismo, encabezá pa Michael Kuiperi, tabata nucleo di un comité di torneo cu a prepara tur areglonan pa e evento internacional. E concurso di anja pasá a worde teni den awanan di Bonaire. E torneo di otro anja lo worde teni na Curaçao.

Tur medalja, trofeo y premionan special a worde presentá na ceremonianan special teni Diadomingo, Nov. 15, na hotel. Gobernador A. B. Speekenbrink a haci e presentacionnan na nomber di gobierno di Antillas Holandes. Campeon di spearfishing a recibi medaljan di oro, di plata of brons plus trofeo special mientras e equiponan di trolling cu a sali campeon a recibi wekker marca Oris, coponan special y otro premionan.

Thrift Earnings Explained By F. Switzer on Lago Hour

Because of its interest to Lago Thrift Plan participants, the speech of General Superintendent F. W. Switzer on fund earnings is published. Mr. Switzer's remarks were first heard over the Lago Hour.

At the beginning of this month Lago announced the company-given additional contribution to all participants of the Lago Thrift Plan. Last week the company made another announcement concerning the Thrift Plan. Administrators of the Lago Thrift Foundation notified the plan's participants that they have shared in almost one million guilders in fund earnings. The additional contribution and fund earnings are distinct and apart. I want to explain the difference and what it means to Lago Thrift Plan participants.

The Thrift Plan has, on occasion, been subject to comment. Some of it is unfavorable stemming from misinterpretation or even not knowing where money in the plan comes from. I don't propose to interpret the basic principles of the Thrift Plan. But I do want to tell each of you where the money or fund earnings come from that are given to each Thrift Plan participant at the year's end.

To begin with, the first sum given to each participant is the additional contribution. This is company money given by the company to those in the Thrift Plan. This year the company gave each participant twenty-five guilders plus sixty-five cents for each guilder the participant had deposited in his account. This year was the twenty-first consecutive year the company has made its additional contribution. Four thousand seven hundred and twenty-one Thrift Plan participants received the additional money.

Shortly after the additional contribution was announced, Thrift Plan participants received some more money from fund earnings. Just what are fund earnings? Where did this huge sum of almost a million guilders come from that was shared among Thrift Plan participants? Good questions. And I'm sure you will find the answers interesting and possibly surprising.

Thrift Plan Participants Are Capitalists

I think a good way to begin the answer is to say that all Thrift Plan participants are capitalists. Is that surprising? If you accept one definition that a capitalist is a person with money invested in other businesses or agencies, then Thrift Plan participants are all capitalists. Why? Because all the money the participants put into the Thrift Plan plus the sums contributed regularly by the company to each account are invested in other businesses and agencies.

Money in the Thrift Plan is not idle money. By no means. It is put to work. Thrift Plan money is invested in favorable interest-bearing securities. The interest returned from these investments are the fund earnings. The earnings are shared by all Thrift Plan participants. This year the interest averaged two point nine three per cent. It amounted to nine hundred and forty-five thousand four hundred and six guilders in income from Thrift Plan investments. All of this huge sum is divided among Thrift Plan participants. The credit balance in each account on September 30 determines each participant's proportionate share of the earnings. Earnings this year are one-hundred thousand guilders more than last year.

As money is deposited in each account by each participant and by the company, it is invested immediately. Thrift Plan participants will be surprised, I am sure, to hear that their money is invested in United States government securities, Canadian municipal securities and Belgian government securities. These investments are in addition to government bonds of the Netherlands Antilles. Still other income comes from interest of bank deposits, interest paid on loans by Plan members and interest on loans to the Home Building Foundation.

So you can see, Thrift Plan money is active money. It is invested wisely and the benefits of these investments in terms of hundreds of thousands of guilders are distributed every year to all participants. The earnings are additional to everything else participants receive — additional to the company's regular contributions and even additional to the additional contribution.

This is only one beneficial aspect of the Lago Thrift Plan. There are many others. Fund earnings, however, is a little known aspect. It is that part of the Plan where the participant's money is invested to make him more money.

Two Promoted

(Continued from page 4)

to the Marine Department June 1 of this year on training assignment.

Mr. Vries started at Lago March 31, 1941 as a clerical apprentice A in the Marine Department. He transferred to the Industrial Relations Department in May, 1941, where he advanced to apprentice typist C. In October, 1942, he transferred to Mechanical-Administration where he ultimately became an apprentice clerk D. He returned to the Marine Department in April, 1943, and advanced to apprentice clerk A, in 1947, section head of Ship's Clearance that same year and signal tower operator in April, 1945.

Christmas Choir To Perform Four Times This Year

The 75-voice Lago Community Christmas Choir will ring in the holiday cheer with four presentations of its special Christmas Concert. Under the able direction of Doris Thompson, the choir will appear for the first time in Aruba's new Cultural Center as well as give its third concert since 1956 in the Lago Sport Park. In addition, the choir will present two concerts at the Lago High School. Mrs. Thompson directed the initial Sport Park concert back in 1956. The organist for the concerts will be Ruth Collins.

The choir, made up of adult voices of Seroe Colorado residents, will appear at the Cultural Center Wednesday evening, Dec. 16, at 8:15 p.m. Tickets will be Fls. 2 and will be on sale at all De Wit book stores and at the Cultural Center. The Sport Park concert will take place the following evening, Thursday, Dec. 17, at 8 p.m. Tickets for this concert will be Fls. 0.50 for adults and children. There will be no "live" radio broadcasts of this year's program. The Lago High School appearances will be Dec. 13 and 14.

In addition to two numbers from Handel's "Messiah," traditional Christmas carols will be included in the choir's program of special Christmas music. Last year, more than 2000 persons jammed into the Sport Park to hear the inspiring program.

All receipts from the Sport Park concert will be donated to an Aruban charity which will be selected at a later date. Because of poor acoustics often encountered in open-air park concerts, it will especially be appreciated if crowd noise is kept to a minimum so everyone can hear.

Americo R. Petrochi

The death of Americo R. Petrochi, 24, cleanoutman in Mechanical-Yard, occurred Dec. 1 at San Pedro Hospital. The deceased had ten years, two months of Lago service. He is survived by his parents.

Ganashi di Thrift Splicá Door di Fred W. Switzer

Pa via di e interes na participante nan den Lago Thrift Plan, e discurso di Superintendent General F. W. Switzer tocante ganashi di e fondo ta worde publica. E remarcanan di Sr. Switzer a worde tendé promer durante e Hora di Lago door di Radio Victoria.

Na principio di e luna aki Lago a anuncia e contribucion adicional duná door di compania na tur participantenan den Lago Thrift Plan. Siman pasa compania a haci un otro anuncio tocante Thrift Plan. Administradornan di Lago Thrift Foundation a notificá e participantenan den e plan cu nan lo comparti den casi un milion florin di ganashi di e fondo. E contribucion adicional y ganashinan di e fondo ta distinto y aparte. Mi kier splica e diferencia y loke e ta nificá pa participantenan di Lago Thrift Plan.

Tin bez Thrift Plan sa ta obheto di mucho comentario. Algun ta disfavorable como resultado di mal comprendemento of hasta falta di saber di unda e placa den e fondo ta bini. No ta mi intencion pa duna detaya di tur e principionan fundamental di Thrift Plan.

Pa cuminsa, e promer suma cu ta worde duná na cada participante ta e contribucion adicional. Esaki ta placa di compania duná door di compania na esnan den Thrift Plan. Esey ta e unico requisito — pa ser un participante den Thrift Plan. E anja aki compania a duna cada participante binti-cinco florin plus sesenta-y-cinco cent pa cada florin cu e participante a depositá den su mes cuenta. E anja aki tabata di binti-cinco anja consecutivo cu compania a haci e contribucion adicional aki. Cuatro mil siete ciento y binti-un participante den Thrift Plan a haya e placa adicional aki.

Poco despues cu e contribucion adicional a worde anunciá, participantenan den Thrift Plan a recibí algun placa mas for di e ganashi di e fondo. Kiko ta ganashi di e fondo? Di unda e suma di casi un milion florin cu a worde reparti entre participantenan di Thrift Plan a bini? Bon preguntanan. Y mi ta segur cu lo bo haya e contestanan interesante y podiser sorprendente.

Participantenan den Thrift Plan Ta Capitalista

Mi ta kere cu un bon manera pa cuminsa e contesta ta door di bisa cu tur participantenan den Thrift Plan ta capitalista. Ta stranjo? Si bo acepta un definicion di capitalista como un persona cu placa invertí den otro negoshi of agencianan, anto participantenan di Thrift Plan tur ta capitalista. Pakiko? Pasobra tur e placa cu participantenan pone den Thrift Plan plus e sumanan cu ta worde contribuí regularmente door di compania na cada cuenta ta worde invertí den otro negoshi.

Placa den Thrift Plan no ta placa cu no ta circula. E ta placa cu ta traha. Placa di Thrift Plan ta worde invertí den seguridanan cu ta paga interesnan favorable. E anja aki e interes a monta na dos punto nuebe por ciento. E ta monta na nuebe cien y cuarenta y cinco mil cuatro ciento y seis florin na entrada for di inversion di Thrift Plan. Henter e suma grandi aki ta worde parti entre participantenan di Thrift Plan. E balance di credito den cada cuenta ariba September 30 ta determiná e parti proporcional di cada participante den e ganashi. E anja aki e ganashi ta cien mil florin mas tanto cu anja pasa.

Segun placa ta worde depositá den cada cuenta door di cada participante y door di compania, e ta worde invertí inmediatamente. Participantenan den Thrift Plan lo ta sorpresá, mi ta segur, di tende cu nan placa ta worde invertí den seguridanan di gobierno di Estados Unidos, seguridanan di e municipalidanan Canades y seguridanan di gobierno Belicano. E inversionnan aki ta ademas di e papelnan di préstamo di gobierno di Antillas Neerlandes. Ainda otro entradanan ta bini for di interes di depósitos na banco, interes pagá pa préstamo na miembronan di e Plan y interes ariba préstamo na Home Building Foundation.

Anto bo por mira, placa den Thrift Plan ta placa activo. E ta worde invertí juiciosamente y e beneficio di e inversionnan den suma di cientos di miles di florin ta worde reparti tur anja na participantenan. E ganashinan ta ademas di tur otro cos cu e participantenan ta recibí — ademas di e contribucionnan regular di compania y hasta ademas di e contribucion adicional.

Esaki ta solamente un aspecto beneficiante di Lago Thrift Plan. Tin hopi otro. Ganashinan di e fondo, sinembargo, ta un aspecto poco conocí. En corto, esaki ta e parti di e Plan unda placa di un participante ta worde invertí pa gana mas placa pé

Fire Drill Keeps Firemen Alerted

NO, THIS isn't a dramatic coverage of a real fire but it could have been. As far as most firefighters at Lago are concerned, when the fire signal whistle starts tooting — that's it! They hustle to the site in jig time and set up their equipment. Fortunately, this was a practice drill to keep firemen on their toes. It's just good insurance against letting a real fire get out of hand. The technique of spraying water on a burning tank, lower right, is to cool down the oil inside below the combustion point.

NO, ESAKI no ta un retrato dramático di un candela di berdad, pero e por bien tabata. En cuanto mayoria pagadornan di candela na Lago ta concerná, ora e senjal di candela cuminsa pitra — para ela! Nan ta laga rancu den un instante pa e sitio y ta pone equiponan cla. Mortunadamente, esaki tabata un sherecicio pa tene e pagadornan di candela alerta. Esaki ta solamente un aseguranza pa preveni un candela di berdad di bira grandi.

SPAC Ta Publica Informe Tocante Aseguro di Bida

Special Problems Advisory Committee recientemente a obtene hechonan y cifranan perteneciendo na e plan di aseguro en grupo. Den discusion di e material aki cu oficialnan di SPAC, a worde splica cu e informacion aki por worde considera como un informe anual. Nan a sugeri cu si participantenan tin cualkier pregunta tocante e plan esakinan mester worde dirigi na miembronan di SPAC.

Resumen di experiencia ta sigui:

Fondo di Reserva

E fondo di reserva na fin di Februari 1958 tabata Fls. 88,347.71. Cu mas interes acera y un otro anja di experiencia favorable, e fondo aki na fin di Februari 1959 tabata Fls. 103, 997.82. Un fondo di reserva di Fls. 100,000 mester a worde acumula, pa worde usa den caso di hopi demanda pa pagonan grandi na e mes tempo. Den e plan na e tempo tabatin 3367 participante y, pesey, distribucion di fondonan exeso di Fls. 100,000 lo suma na menos cu Fls. 1 pa cada participante.

Esaki no vale la pena. Si e experiencia ta mes favorable pa resto di e presente anja fiscal manera e tabata den anjanan pasado, sinembargo, anto despues di otro anja Februari por tin un poco aseguro liber. A tuma tres anja pa forma un fondo di Fls. 100,000, pero tur esaki awor ta na credito di participante na obheto di determina futuro distribucion di aseguro liber.

Mortonan Asegurá Contra No-Asegurá

E ratio di mortonan asegurá contra no-asegurá tabata casi exactamente en proporcion cu e participacion.

Durante e anja fiscal terminando Februari 1957 tabatin cuatro morto di empleadonan asegurá contra seis morto di empleadonan no-asegurá. Tabatin cuarenta y cuatro por ciento di participacion e tempo. Durante e anja fiscal terminando Februari 1958 tabatin cinco morto di empleadonan asegurá y diez di empleadonan no-asegurá. E participacion tabata cuarenta y seis por ciento.

Durante e anja fiscal terminando na Februari 1959 tabatin nuebe morto asegurá y cuatro no-asegurá. E participacion tabata sesenta y ocho por ciento. E anja aki te awor e ratio ta cuatro pa tres na favor di empleadonan asegurá.

Mehor Experiencia Proporcional

E segunda "drive" a permiti empleadonan cu no ta asegurá pa firma sin examinacion medico. E experiencia por tabata mucho mas malo pa motibo di esaki, pero afortunadamente no tabata asina.

E plan ta cumpliendo cu su intencion; e tarifa ta tan barata manera ta posible; y ta di spera cu e experiencia lo sigui favorable asina cu participantenan lo comparti den beneficiacion en por worde derivá di experiencia favorable.

Generalmente, declaracionnan detaya financiero no ta worde mandá pa tur participante den un plan di e sorto aki pa motibo di e gasto adicional cu ta worde cargá na e plan.

Big Stack

(Continued from page 3)

boom cleared the stack from the ground at 1 p.m. Nov. 16 and had it eased onto the anchor bolts by 3 that same afternoon.

The stack had been sandblasted — it had been moved from the gas oil unit to the sandblast area in two, eighty-foot pieces — rewelded then welded again to a shorter base. Originally 200 feet in length, the stack was painted with Demetcoat and moved to the No. 9 Visbreaker site.

Dos Empleado Ta Sali Cu Pension

Dos empleado di Lago cu un total di cincuenta y seis anja di servicio entre nan dos lo sali pronto cu pension. E empleadonan di largo servicio ta Pedro Maduro, boilermaker helper A den Mechanical-Metal Trades, kende tin mas cu binti-seis anja di servicio, y Jacobus Arends, houseman den Process-Cracking, kende ta keda

P. Maduro

J. Arends

falta net diez-cuatro dia pa yega trinta anja di servicio.

Sr. Maduro a laga compania Nov. 23 pa retira despues y Sr. Arends lo sali Dec. 12 pa retira den futuro. Sr. Maduro a cuminsa traha na Lago Aug. 29, 1930 como helper first class den Mechanical-Metal Trades unda el a keda te October 1935. El a transferi pa pressure stills como helper y despues a bai dry dock. El a bira dry dock helper B na Juli 1944. Sr. Maduro a transferi pa metal trades como boilermaker helper B na Augustus 1947. El a worde promovi pa boilermaker A na Maart 1950. El ta keda biba na Aruba.

Sr. Arends a bini Lago Nov. 28, 1929 como laborer den Process-Cracking unda el a keda durante cracker su binti-nuebe anja, diez-un luna y diez-seis anja di servicio. El a bira still cleaner na Juni 1932 y chamberman na November 1937. El a worde nombrá process helper C na Mei 1942 y fireman na October 1942. Sr. Arends a traha tanto como houseman y despues levelman na 1943, pero el a bolbe pa su trabao di houseman April 1, 1958.

Boxeo Amateur den Lago Sport Park Nov. 17 y 24

Dos decision pretá y un victoria decisivo a culmina e accion na e programa di e boxeo cu a worde celebrá Nov. 24 na Lago Sport Park.

Den e promer pelea, Ruis Martin, 120 liber, a gana un victoria decisivo over di Carlos Basilio, 123 liber. E pelea aki di peso pluma a dura tres rond. Decidiendo na favor di Martin tabata Referee Stanley Smith.

E segunda pelea tabatin e aficionadonan ariba nan punto di pia varios vez. Esaki tabata entre John Brown y Ichaay Rasmijn tur dos 134 liber; kende a bringa calurosamente te na

ultimo bel. Den un decision masha pretá, e referee a concede e pelea na Brown. No tabatin knockdown.

Un otro pelea ardiente tabata di tres ora P. E. Romney, 142 liber, a gana A. F. Frazer, 145 liber, segun huzgamento di e referee. Mesos cu den e segunda pelea, esaki a wanta e completo tres rond y no tabatin knockdown tampoco. Despues di e pelea aki un exhibicion a worde presentá door di dos boxeador profesional, Kid Spider y Little Joe Louis. E welterweights local a actua durante tres rond di tres minuut. Amateurs ta bai solamente dos minuut den cada rond.

E peleanan di e siman anterior a mira Basilio derota M. De Mey den tres rond, Romney gana ariba M. Arrindell cu un technical knockout den promer minuut y cincuenta seconde di tercer rond y H. I. Guy derota R. Frazer pa decision die referee. J. Brown a batí J. Moore, H. Wiashi a gana di I. H. Frazer y L. Martin a vence M. K. Hazel den un match di tres rond pa decision.

William Myers, Maximo Vries Promovi Dec. 1

Promocion di dos homber den Marine Department a worde anuncia Dec. 1. William L. Myers a worde nombrá division head di Haulage Coordination y Maximo Vries a worde promovi pa shift supervisor-Agency Operations.

Sr. Myers a cuminsa traha na Lago Oct. 13, 1954 como ingeniero den TSD-Engineering. El a worde promovi pa assistant supervising engineer-inspection na Juli 1958. Sr. Myers a transferi pa Marine Department Juni 1 di e anja aki ariba un encargo di entrenamento.

Sr. Vries a cuminsa na Lago Maart 31, 1941 como clerical apprentice A den Marine Department. El a transferi pa Industrial Relations Department na Mei 1941, unda el a avanza pa apprentice typist C. Na October 1942 el a transferi pa Mechanical-Administration unda por final el a bira apprentice clerk D. El a bolbe Marine Department na April 1943, y a avanza pa apprentice clerk A, na 1947, section head di Ship's Clearance e mes anja y signal tower operator na April, 1945.

Schoorsteen

(Continued from page 3)

rick a lamta e schoorsteen for di terra pa 1 p.m. Nov. 16 y pa 3 'or e mes atardi e tabata pasá over di e bolts ariba su base.

E schoorsteen a worde sandblast el a worde hibá for di e gas oil unit pa e lugar di sandblast den dos seccion di ocho pia cada uno. Despues nan a worde uni atrobe pa medio di welding. E schoorsteen, originalmente 200 pia largo, a worde gevef cu Demetcoat y movi pa No. 9 Visbreaker.

Despues cu e schoorsteen tabata salbo ariba su base, machinists a drecha e draadnan di e bolts di 2-1/2" y boilermakers a mara e nuts cu ta dobel mas grandi cu un molinete cada uno. Ainda mester a instala e airway entre e schoorsteen y e forno.

Amateur Boxers Mix It Up In Lago Sport Park Bouts

Two close decisions and a decisive victory highlighted the action at the Nov. 24 boxing matches held at the Lago Sport Park.

In the first battle, Ruis Martin, 120 pounder, won a decisive victory over Carlos Basilio, 123 pounds. The featherweight contest went the three-round limit. Deciding in favor of Martin was Referee Stanley Smith.

The second fight had the crowd on its feet a number of times. Matched were John Brown and Ichaay Rasmijn, both 134 pounders, who slugged it out to the final bell. In a very close decision, the referee awarded the fight to Brown. There were no knock-downs.

Another crowd-pleaser was the third event when P. E. Romney, 142 pounds, mastered A. F. Frazer, 145 pounds, according to the judgment of the referee. Like the second fight, the battle went the three-round limit and neither opponent scored a knockdown. Following this fight, an exhibition was presented by two professional boxers, Kid Spider and Little Joe Louis. The local welterweights performed for three, three-minute rounds. Amateurs go only two minutes a round.

The fights the preceding week saw Basilio defeat M. De Mey in three rounds, Romney take the measure of M. Arrindell with a technical knockout in the first minute and fifty seconds of the third round and H. I. Guy defeat R. Frazer in a referee's decision. J. Brown defeated J. Moore, H. Wiashi won over I. H. Frazer and L. Martin took the measure of M. K. Hazel in a three round, decision match.

AFTER GOING to all the trouble of donning fight togs, I. Peters' opponent didn't show up for the fight. DESPUES DI tur e molestia di histi traje de pelea, e oponente di I. Peters no a presenta pa bringa.

POW! RIGHT in the kisser — John Brown stops a hard, unaimed blow delivered by Ichaay Rasmijn. POW! NET den boca — John Brown ta para un golpe duro sin meta tirá door di Ichaay Rasmijn.

HA! YOU missed, says P. E. Romney as A. F. Frazer puts his 145 pounds behind a determined right that fell short. HA! BO a hera, P. E. Romney ta bisa mientras A. F. Frazer ta pone su 145 liber tras di un derecho determiná.

LITTLE JOE Louis and Kid Spider put on an exhibition. LITTLE JOE Louis y Kid Spider a presenta un pelea di exhibicion.

CARLOS BASILIO, has Ruis Martin off balance here but Martin won. CARLOS BASILIO, tin Ruis Martin for di balance aki.

UP GOES P. E. Romney's left arm as Referee Stanley Smith decides in his favor. Ariba P. E. Romney su braza robez ta bai mientras Referee Smith ta decida na su favor.
